Other Available Colors:

The ever-popular Industry design has been given a makeover and we now present Modern Industry! This second generation design has been updated by recoloring one-third of the palette and introducing a new crisscross emboss that creates just the right amount of sheen. Modern Industry's subtle print echoes either a painterly, plaster or brushed metal effect depending on the color—a fresh, new look in 36 colorways and endless coordination options with contract textiles and carpeting. The beautiful tonal hues span the range of useable greys, beiges, and crisp white to trending greens and blues, and rich, deep accents.
