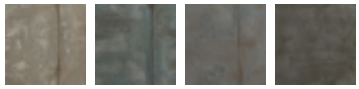
Gilded Masonry

MRE1317 – Glimmer

Other Available Colors:



This inventive visual combination of industrial material and precious metals makes an arresting wallcovering. The appearance of vertical expansion joints and a rough and rugged texture is elevated to impressive status when reflective sheen is added. In reality, it is made of durable Mylar vinyl, and there are five exciting selections such as Metro Link, a mélange of bronze, gold and silver, or Blue Cargo, a scintillating blend of teal and silver.
