

Go Beyond the Whiteboard

tabrasa™ by IdeaPaint dry-erase paint turns any working environment into a high-performance writing surface without seams, borders or restrictions on size and placement. Water-based and lower VOC's, tabrasa™ provides an environmentally friendly low-cost option for transforming any space into a hub of creativity and collaboration.

Functionality

tabrasa™ is an innovative, cost-effective option for creating a collaborative writing environment in any space:

- No seams, borders or restrictions on size and placement
- Suitable for any paintable surface from entire walls or panels to columns, hallways or even over old and worn-out chalk and dry-erase boards
- Water-based with lower VOC's
- Offered in four new colors in addition to standard white
- Ideal for offices, schools, hospitals, retail, government or hospitality, turning any unusable space into an environment ready for idea sharing

Performance

tabrasa™ uses IdeaPaint's patented dry-erase paint technology, making tabrasa™ the most cost-effective and high-performance dry-erase solution available:

- Requires only one roller-applied coat to install
- No ghosting or permanent marks typical of other dry-erase products
- Carries a ten-year warranty
- Proven to outperform and outlast dry-erase wallcoverings and traditional whiteboards

Sustainability

On top of offering increased durability and flexibility, tabrasa™ is the most environmentally friendly dry-erase product available:

- Requires far fewer raw materials compared to traditional dry-erase products
- Reduces energy used during manufacturing and distribution
- Conforms to all U.S. EPA regulations
- Lower VOC and produces zero off-gassing once dry
