

Moon Beam

MCO2199 – Glacier

Candice Olson Couture

A linear prism radiates from a narrow point, creating a honeycomb that speaks to science and structure in this shimmering tribute to organic geometry. Printed on a vinyl surface with non-woven substrate backing, this highly durable commercial wallcovering smooths effortlessly, is easy to remove, and meets Type II requirements of CCC-W-408A. Moon Beam is available in a palette of six color choices.
