MHE27016 – Round Metal Coffee Table

Accent Furniture

Recently I was able to watch iron being molded and casted. As the long metal bands were pulled over the craftsman's table, the metal started to bend and take shape. This was the start of our newest metal table collection. This coffee table features a round iron frame housing a thick tempered beveled glass surface. Also available in a side table.

Specifications

Height 18H
Material Steel
Width 36W
Shape Round
Weight 33.1
Finish Brushed
