

Sextant

MUE1005 – Brass

Unique Effects

Sextant, the first wallcovering from eco-chic designer Jamie Beckwith, is a sustainably sourced, in-laid wood veneer. This large-scale, geometric style is offered in seven colorways – from authentic wood tones to modern shades of silvery blues and greys. Each individual veneer is turned at various degrees to create movement in the grain, resulting in a truly one-of-a-kind design.

Specifications

Contents Wood Veneer
