Dazzling Mystere

MCD2214 – Glint

Full Repeat:

Other Available Colors:

Reminiscent of geodes or perhaps malachite, stone-like slabs with curvilinear lines and beautifully contrasting color suggest an organic origin. Through the use of Mylar, intermittent veins of glistening metal add a note of sophistication. Among the five palettes is Orchid, with shades of light purple, cream, and brown with silver streaks, or Glint, in southwestern slot canyon browns with taupe, grey, and shining silver. This handsome vinyl wallcovering is washable and durable.
