Accessories

MHE12334 – Elswit Tower Sculpture

Inspired by an art nuevo building called the Elswit Tower. A stunning fusion of modern design and beautiful arches. This remarkable piece offers a visual experience like no other, with its smooth grey faux cement finish and distinctive chiseled arches. Its one-of-a-kind design appears to shift seamlessly between curvy and straight when viewed from different angles. This dynamic feature allows you to appreciate its sculptural beauty from various perspectives, making it a conversation starter and a focal point in any space. Its minimalist color palette ensures versatility, effortlessly complementing any decor style, from industrial to modern and beyond. Available in two sizes, allowing you to select the perfect fit for your space. Place the smaller version on a shelf, desk, or side table, or make a bolder statement with the larger one as a prominent centerpiece.
