Mirrors

MHE230000 – Aranda Modern Mirror

The Aranda modern mirror was inspired by some of the mot groundbreaking modern architecture of the 60's and 70's. As architects of that era broken all conventional norms, these new shapes started to influence our approach to interior design as well. The overall shape of the Aranda modern mirror is a prime example of thinking in the abstract for inspiration. The matte black finish on this wooden framed unique design will make quite the statement in any room of the home.
