MHE230009 – Abstract Wooden Trunk Art Set of 9

Thick wooden slices of tree truck, with it's rich brown and gold flecked color, natural growth and textures, gives this set of 9 an unbelievably simple but stunning look. Nature once again becomes our best muse and helps us create art that speaks to the most classic of styles to the modern minimalist. The back hardware of each piece give us two directional options for hanging so that that the pattern can be created in a few ways to suite your own space or home decor.
