## Accent Furniture MHE27028 – Myatt Side Table

## Accent Furniture

The modern architectural designs of Robert Myatt was the inspiration behind this collection of tables. Each table fame in matte black features a contemporary sculpted textural multiple legged design with criss crossed supports. To highlight the design of these tables we selected a beautiful black marble for the tops, that was hand carved and polished for each. The Myatt side table truly has a quality that makes it unique, alone or used in the complete collection.

## **Specifications**
