MHE29094 – Adeline Bi-Fold Vanity Mirror

The creation of the Adeline mirror, with its double folding sides and sophisticated curved lines, has created a one of a kind look. We finished the back and sides in a soft champagne color to keep the look within some of today's hottest lifestyle trends. A primary example to our attention to the detailing in this mirror is the beautiful beveling that each panel has been given by hand. The Adeline will become a classic go to mirror for vanities of all styles traditional to contemporary.
