Accessories

MHE34239 – La Marr Vase, Tall

Nature once again was the muse that created the La Marr collection. Tropical foliage, each with their own unique textures and size, were pressed into molds that would later became beautiful home decor elements. We decided to give the collection a contemporary twist with finishing each of these in a high gloss white. Perfect as a sculptural piece for the tabletop or as a functional vase to show off the season's best blooms.
