MHE44076 – Yale Blue Asymmetrical Glass Vase- Short

The striking blue hue of this vessel is enriched by the presence of silver rays that flow asymmetrically through their surfaces, creating a sense of movement and intrigue. This captivating interplay between color and texture invites you to embrace the beauty of asymmetry in design. It infuses your decor with a sense of contemporary style and endless creative potential, allowing you to curate a living space that truly reflects your unique personality and design vision.
