Mirrors

MHE48122 – Flair Mirror

Frameless mirrors have always been popular for their simplicity. Inspired by the traditional frameless style, we have added elements of acrylic and metal for added versatility in designing a traditional to the hippest modern home. The Flair mirror features a square frame with exaggerated flared corners creating a star like shape. At the tip of each point is a polished stainless steel cap. D rings are affixed to the back of the mirror so the piece is ready to hang right out of the box in a square or diamond orientation!
