### MHE51365 – The Sivas Glass Vase with Silver Accents, Tall Accessories

The Sivas collection of glass vases was inspired by the brushstrokes of a recent work of art that was being worked on in our studio. The frosty white, cool gray, and metallic silver were blended together layer after layer being used until the right composition appeared. This was then applied to the vases and a polished silver stainless-steel ring was added on the top as an accent.
