MHE51401 – Black Ore Glass Vase with metal accent - Large

The black ore vases derive their name from a recent trip to a stone quarry. After watching massive sections of dark black stone being craved our of the ground, we took away inspiration for colors and textures that could be translated into current home accessories. To accent the rich dark finish, we added a polished stainless-steel silver ring angled around the neck of each of the glass vases. Both vases offer a dramatic accent for todays modern interior design.
