MHE69096 – Mid Century Sectional Wall Art

Growing up in a modest home we always had several hand me down pieces that furnished the house. As I got older, I started to notice that comfort took less of an interest and style started to make me question what goes together. The answer to each question was always the same. Its mid century of course. Each of these pieces are embellished by hand with touches of giclee to highlight and add texture to each canvas.
