MHE81030 – Nickel Metal with Bone Top Martini Table

Bone inlay became one of the hottest trends in home decor. Originating in 18th century Japan, the intricate patterns and techniques have been considered valued works of art through the ages. Here we have applied this technique to our Nickel Metal Martini Table. The Aluminum base is finished in a bright silver nickel with a and topped by a round black and iridescent bone inlay top. Its small footprint makes it the perfect table for small spaces
