MHE92277 – Window Frost Hand Painted Original Art

Waking up one late fall day only to find that the temperate had dropped considerably. Frost had covered over the windows and show me that winter was approaching. The icy crystals created a wonderful new view into the world. Thick layers of paint are hand applied to create movement and texture. Because it is hand painted, no two pieces of art will be exactly the same. The gallery wrapped canvas is set into a floating black wood frame. Hardware is attached so the back of the art so that it is ready to hang right out of the box.
