MHE92280 – Night on the Town Hand Painted Original Art

I love the way rain distorts light and reflections. One late night while returning home , I noticed how the rain on the cab window played with the street lights, store signs, and the traffic. This became the start of one of our latest abstracts from city life. Thick layers of paint are hand applied to create movement and texture. Because it is hand painted, no two pieces of art will be exactly the same. The gallery wrapped canvas is set into a floating black wood frame. Hardware is attached so the back of the art so that it is ready to hang right out of the box.
