MHE92323 – Concrete Poppy Hand Painted Original Art

One day while walking through Central Park, I came upon a section of broken sidewalk. As I grumbled about the state of disrepair, I noticed a few single poppy plants had sprouted through the cracks, one proudly in bloom! I walked away with a smile on my face thinking that the beauty of nature is everywhere. Thick layers of paint are hand applied to create movement and texture. Because this is an original hand painted work of art, no two pieces of art will be exactly the same. The gallery wrapped canvas is set into a floating silver leaf wood frame. Hardware is attached so the back of the art so that it is ready to hang right out of the box in either a horizontal or vertical orientation!
