MHE92340 – Building Art One Wall at a Time Hand Painted Original Art #3

As we pulled into the Paris Gare du Nord Station, The bright colors of the graffiti on the neighboring buildings caught my eye. Seeing these makes me wonder how the artists are able to create their art while suspended over the side of the building. I have created my own version with both feet planted firmly on the GROUND! Thick layers of paint are hand applied to create movement and texture. Because this is an original hand painted work of art, no two pieces of art will be exactly the same. The gallery wrapped canvas is set into a floating black wood frame. Hardware is attached so the back of the art so that it is ready to hang right out of the box! This piece is part of a 3 piece series. Pair with the additional pieces in the collection for a complete look.
