

Mirrors

MHE94144 – Hayes Asymmetrical Mirror #2

Contemporary artist Thomas Hayes was the inspiration for the abstract metal framed mirrors. His unique geometric shapes gives us the starting point to create a semi frameless beveled mirror nestled in at the bottom of this unusual open top frame. Finished in matte black, both of the Hayes mirrors will add a modern twist to everywhere in the home.

Specifications

Height 40H

Material Metal

Width 30W
