MHE94147 – O'Neill Multi Functional Dressing Mirror

With small space living being such a hot trend currently, we started to design with this in mind. The O'Neill beveled dressing mirror began with our popular oversized leaners that grace so many homes today. We looked at that space behind the mirror and started to redesign the use of that space to fit today's sometimes tight quarters. We added a shelf in a light oak colored finish as well as a top row of modern styled hangers, all in a metal frame finished in matte black.
