MRE1116 – Driftwood

Restoration Elements

Melding the industrial with the organic, the modernisme movement of Spanish design is as relevant today as it was in the 1800s. This prime 21st-century example looks like a finely woven screen with a coat of stucco, weathered and worn, spattered and smudged over time. The rugged look belies the finely textured vinyl which is available in cream with beige and tobacco brown with black.
