

Circuit

MRE1589 – Fog Transit

Restoration Elements

The deep, shadowed embossed of pattern Circuit creates an angular, vertical cascade washed with pearled color, for an industrial mix of rustic patina and shimmer. The eleven-color palette of earth tones is inspired by natural building materials and clay pipe. Printed on a vinyl surface with non-woven substrate backing, this highly durable commercial wallcovering smooths effortlessly, is easy to remove, and meets Type II requirements of CCC-W-408A.
